2) BANKING

Sign up for one of the following online bank accounts and save a lot because of the fees or should I say NO fees at ATMs all over the world:

wirex Crypto and traditional currency in the palm of your hand. The only place to buy, store, exchange and spend your crypto and traditional currency in-app or on desktop. No fees, zero fuss. Join Here !

Revolut Spend abroad with no fees - Send money globally for free - Buy and exchange cryptocurrency - Get paid back with ease Join Here !

N26 Cash from any ATM without fees. Your bank account in 8 minutes Join here !

bunq BANK OF THE FREE Ultimate card control - bank without borders - bank of the free Join Here!

3) BOOK FLIGHTS

Search for cheap flights www.skyscanner.com. If you are flying to an Island mostly it's cheaper to fly to a big city and then book a separate flight to the island than booking a complete package. For example flying to Koh Samui in Thailand. Book cheap flight to Bangkok, Kuala Lumpur or Singapore and then book a separate flight with AirAsia or Bangkok Airways. It can save you up to €200 per person. For a family of 5 like us you save €1000. In our opinion it is also more fun because you can stay a few days in one of those big cities before moving on to that tropical island. The kids will love cities like Bangkok. They love driving in the tuk-tuks, standing next to 30 meter high Buddha statues, etc. Just imagine the fun you will have.

4) FIND ACCOMODATION

If you are not up to housesitting than we would recommend you to use the following apps for finding cheap accommodation.

Booking.com

Agoda.com

Expedia.com

5) INCOME
